XIOLIFT Intelligent Factory

Elevator Factory Area(m^2): 70,000

Capacity(unit/year): 90,000

Escalator Factory Area(m^2): 50,000

Production Line: 6

Capacity(unit/year): 10,000

Fully Automatic Intelligent Sheet Line

Salvagnini Flexible production line

- Automatic feeding and laying-off
- Automatic shear center detection
- Automatic moving and cutting
- Automatic bending center detection
- Automatic barcode, laying-off

- Automatic feeding
- Punching Center
- Long side bending center
- Short side bending center

Automatic Powder Spraying line

American brand Nordson, a global leader in spraying equipment

Double deck spraying line design, space-saving

Humanized design, intelligent control operation

Imported spray chamber, precise, economical and efficient

Silanization derusting, energy-saving and environment-friendly

Variable frequency transmission chain, conveyor speed can be adjusted freely

ABB welding robots from Swiss

Welding tooling platform

Built-in electric induction

Sensing detection

Commercial Escalator Production Line

Public Escalator Production Line

Noise Testing Room

Depth 23.5m, Width 9m,
Built with environment-friendly building materials
Mute effect $\leq 55\text{db}$

Gantry Tooling Production Line

National invention patent tooling
Up and down head positioning
Up and down large brackets installation positioning
Glass stiffener installation positioning
Center guide installation positioning

Elevator controller

Suspended tooling, with tools mounted in order. The workshop has wide vision and has automatic simulation test and 100% full function inspection.

Escalator controller

Unit operation in pre-material configuration mode. The workshop has automatic simulation test and 100% full function inspection.

Human interface

The workshop uses the ball flow line, the front working platform and the rear material storage, which reduces the material handling time and has automatic simulation test as well as 100% full function inspection.

Motor Manufacturing Center

World's largest gearless traction machine production base

The global market share: 20%

On average, 1 in every 5 elevators is used
